

## WOLF STORM Book Club/Class Discussion Questions

1. In chapter one, could you imagine this scene from the one paragraph description? Even though the author doesn't say what kind of creatures she's writing about, can you guess what they are?
2. If you were in Stefan's place, acting for the first time, being a long way from home, and being without your family, which one would be hardest for you?
3. Do you think it was right that Stefan didn't explain how the accident with Inky happened? What would you have done?
4. What did you think of Raine after the first few chapters? Did your view of her change by the end of the book?
5. Raine at thirteen years old is both successful and wealthy. What parts of her life do you think are not so happy?
6. Stefan is discouraged by his mistakes, but when the situation gets serious, what abilities and skills does he have that help everyone survive?
7. Raine had a terrible choice to make between her dog and Jeremy and she only had a second to make it. Do you think she would have made a different decision if there had been more time?
8. Everyone has become very dependent on cell phones. Can you imagine a world without cell phones? How would things change?
9. While dogs have been domesticated for thousands of years, wolves are still essentially wild animals. Do you think it is right that some wolves are trained to act like dogs?
10. Raine and Stefan start out the story misjudging each other and Cecil. As the story progresses, they learn they shouldn't rely on first impressions. Do you think this is common? Have you ever met someone you didn't like at first, only to discover later you did?

### Just for fun

If you had a chance to act in a movie, what kind of movie would you like it to be? Where would you like it to be filmed?
